Timberline Area Flood Risk Management – Project 5949

August 31, 2010 Public Informational Meeting

General Project Response:

Please provide feedback for providing flood protection for the neighborhood.

☐ Yes ☐ No Question #1 – Do you support the "recommended plan" for the conversion of the emergency levees to permanent levees in the Timberline Area?

☐ Yes ☐ No Question #2 – If your property is located directly adjacent to Drain 27 / Rose Coulee, are you interested in increasing the level of protection in your rear yard?
